

Tree Without a Tree Competition – 2024

IDEA

This Christmas tree can be made by anyone with the materials readily available at your homes. Which include old newspapers, used broom stick, empty cardboard boxes. The only cost involved was for the adhesive and the paint materials. The main idea of this tree is to be simple and easy to make.

This tree can be re-used for couple of years, if kept well packed. Even after use, all materials are biodegradable, hence will be 100% eco-friendly.
